PROFESSIONAL SUMMARY

Data Analyst and researcher with 5+ years of experience in SQL, Python, and machine learning, with a track record of building predictive models, interactive dashboards, and automated data pipelines. Currently pursuing a PhD in Management alongside an MS in Computer Science, bringing a research-driven approach to empirical problems and fluency in translating data into decisions.

KEY SKILLS

- Business Intelligence & Visualization: Tableau, Power BI, Looker
- Programming Languages: Python (fluent), SQL, R
- Machine Learning: predictive modeling, churn/classification models, A/B testing
- Databases: SQL Server, MySQL, PostgreSQL, Oracle SQL
- Cloud Technologies: AWS, Azure
- Data Engineering: ETL Pipelines, Data Warehousing
- Other Tools: MS Excel, Git, Jupyter Notebook

EXPERIENCE

Business Analyst

Apr 2026 – Present

RS Technologies Inc. | Novi, MI

- Gathered and documented business requirements from stakeholders, translating them into functional specifications (BRDs/FRDs) for cross-functional development teams.
- Facilitated Agile ceremonies and authored user stories with clear acceptance criteria in Jira and Azure DevOps.
- Built SQL queries and Power BI dashboards to track KPIs and support data-driven decision-making for stakeholders.
- Conducted gap analysis between current and future state processes, recommending improvements that streamlined workflows.
- Led User Acceptance Testing sessions, coordinating with QA and business users to validate system changes before release.
- Partnered with IT and business teams to define project scope, timelines, and deliverables.

Business Analyst

Sep 2025 – Mar 2026

Sirian Group Inc. | Plano, TX

- Analyzed business processes and system workflows to identify inefficiencies and recommend data-driven improvements.
- Collaborated with stakeholders to elicit requirements and created process flow diagrams and use cases to support system enhancements.
- Developed SQL-based reports and Tableau visualizations to monitor project metrics and support executive reporting.
- Maintained requirement traceability matrices and supported change management activities across the project lifecycle.
- Coordinated with technical teams to prioritize backlog items and ensure timely delivery of business solutions.
- Assisted in creating test plans and executing UAT to ensure delivered solutions met business requirements.

Data Analyst

Jan 2024 – Sep 2025

Nile Tech Inc. | Jersey City, NJ

- Analyzed large datasets using SQL and Python to identify trends, patterns, and business insights across key operational metrics.
- Developed a machine learning model to predict customer churn, contributing to a 15% increase in retention.
- Designed and maintained interactive Tableau and Power BI dashboards to track KPIs and support stakeholder reporting.
- Built and optimized ETL pipelines to consolidate data from multiple sources, reducing processing time by 40%.
- Performed data cleaning, validation, and transformation to ensure accuracy and consistency across reporting systems.
- Automated recurring reporting processes using Python and SQL, reducing manual reporting effort.
- Partnered with cross-functional teams to gather reporting requirements and translate them into actionable dashboards.

Data Analyst

Mar 2019 – Jul 2021

In Tecnet Limited | Hyderabad, India

- Analyzed large datasets to identify trends, patterns, and outliers using SQL and Python.
- Developed complex SQL queries to extract, transform, and load data from various sources into a centralized database.

- Created interactive dashboards and reports in Tableau to visualize key performance metrics and trends.
- Developed automated scripts in Python to streamline data processing tasks, reducing manual effort by 30%.
- Maintained SQL Server database objects and performed capacity planning, data modeling, data loads, troubleshooting, backup, and recovery.
- Presented findings and recommendations to stakeholders, including senior management, to support data-driven decision-making.
- Conducted A/B testing and analyzed results to evaluate the effectiveness of marketing campaigns.
- Assessed current architecture and data maturity, pinpointing areas for improvement.

EDUCATION

PhD in Management <i>Campbellsville University – Louisville, KY</i>	<i>Aug 2026 – Present</i>
Master's in Computer Science <i>Campbellsville University – Louisville, KY</i>	<i>GPA: 4.0</i>
Bachelor's in Computer Science <i>SJB Institute of Technology – Karnataka, India</i>	<i>GPA: 3.8</i>

CERTIFICATIONS

- AWS Certified Data Analytics – Specialty
- Tableau Desktop Specialist
- Microsoft Certified: Power BI Data Analyst Associate
